Item 4: Advisory Business

Description of Advisory Firm

Family First Wealth Management, LLC is registered as an Investment Adviser with the State of Illinois. We were founded on 08/29/2019. Barry Federici is the principal owner of Family First Wealth Management. Because Family First Wealth Management is a new entity, it currently reports no discretionary or non-discretionary Assets Under Management. Assets Under Management were calculated as of October 2019.

Types of Advisory Services

Investment Management and Financial Planning Services: We provide the opportunity for ongoing comprehensive financial planning and investment management as one core service in order to best assist clients in managing their financial situation, goals, and objectives. We offer investment management as a stand-alone service, however, we always encourage clients to participate in the comprehensive financial planning and investment management so that we can develop a plan that aligns their investments with their other financial goals and objectives.

Ongoing Comprehensive Financial Planning involves working one-on-one with a planner over an extended period of time, at least 12 months, to develop and implement a financial plan. By paying a monthly fee, Clients get to work with a planner who will work with them to develop and implement their plan and the planner recommend any necessary changes to ensure the plan stays up to date once implemented. Upon desiring a comprehensive plan, a Client will be taken through establishing their goals and values around money. They will be required to provide information to help complete the following areas of analysis: net worth, cash flow, insurance, credit scores/reports, employee benefits, retirement planning, insurance, investments, college planning, and estate planning. Once the Client's information is reviewed, their plan will be built and analyzed, and then the findings, analysis and potential changes to their current situation will be reviewed with the Client. Clients subscribing to this service will receive a written or an electronic report, providing the Client with a detailed financial plan designed to achieve his or her stated financial goals and objectives. When a follow-up meeting is required, we will meet at the Client's convenience. The plan and the Client's financial situation and goals will be monitored regularly throughout the year and follow-up meetings, phone calls, and emails will be made to the Client to confirm that any agreed upon action steps have been carried out. On at least an annual basis, there will be a full review of this plan to ensure its accuracy and ongoing appropriateness. Any necessary updates will be implemented as needed throughout the year.

Through our **Investment Management Service**, we manage individually tailored investment portfolios either directly or with the assistance of outside managers or sub-advisers. Our firm provides advice to a Client regarding the investment of Client funds based on the individual needs of the Client. Through personal discussions in which goals and objectives based on a Client's particular circumstances are established, we develop a Client's personal investment policy or an investment plan with an asset allocation target and create and manage a portfolio based on that policy and allocation targets. We will also review and discuss a Client's prior investment history, as well as family composition and background. Account supervision is guided by the stated objectives of the Client (e.g., maximum capital appreciation, growth, income, or growth, and income), as well as tax considerations. Clients may impose reasonable restrictions on investing in certain securities, types of securities, or industry sectors. Fees pertaining to this service are outlined in Item 5 of this brochure.

Our First tier of services includes stand alone investment management for clients with less than \$490,000 in investable assets under our management. Comprehensive Financial Planning can be added on for an hourly rate disclosed in Item 5 below. If the client chooses to have us prepare a comprehensive financial plan at the start of the engagement, we will also conduct an annual review and update of that plan, however, ongoing financial planning consultations that do not involve the client's investments are billed at \$250 per hour until the client reaches \$490,000 in assets under management.

Our Second Tier of investment management services includes ongoing financial planning consultations with no additional fees. We will include additional meetings throughout the year to focus on the implementation of the financial plan of the client's financial plan as well as work through additional financial planning concerns as they arise. Ongoing Financial Planning Consultations for clients with over \$490,000 are included in the annual advisor fee for investment management disclosed in Item 5.

Use of third party investment managers: We may choose to use the services of Third Party Managers, Outside Managers, or Sub-Advisors (TAMPs) for portfolio management services when we determine it is the most appropriate solution for the client. In these cases, we assist Clients in selecting an appropriate allocation model, completing the Outside Manager's investor profile questionnaire, interacting with the Outside Manager and reviewing the Outside Manager. Our review process and analysis of outside managers is further discussed in Item 8 of this Form ADV Part 2A. We will provide ongoing supervision over the account and suggest changes when we believe it is in the client's best interest. Additionally, we will meet with the Client on at least an annual basis to complete an annual review of their portfolio and to discuss changes in their personal or financial situation, suitability, and any new or revised restrictions to be applied to the account. Fees pertaining to this service are outlined in Item 5 of this brochure.

Hourly consultations and Project-Based Financial Planning Service: We provide hourly consultations and project-based financial planning services on topics such as retirement planning, risk management, college savings, cash flow, debt management, work benefits, and estate and incapacity planning in addition to other areas of focus based on the needs of the client. project based financial planning involves an evaluation of a Client's current and future financial state by using currently known variables to predict future cash flows, asset values, and withdrawal plans. Clients engaging in project based financial planning will receive a written or an electronic report, providing the Client with a detailed financial plan designed to achieve his or her stated financial goals and objectives.

In general, the hourly consultation or financial plan will address any or all of the following areas of concern. The Client and advisor will work together to select specific areas to cover. These areas may include, but are not limited to, the following:

Business Planning: We provide consulting services for Clients who currently operate their own business, are considering starting a business, or are planning for an exit from their current business. Under this type of engagement, we work with you to assess your current situation, identify your objectives, and develop a plan aimed at achieving your goals.

Cash Flow and Debt Management: We will conduct a review of your income and expenses to determine your current surplus or deficit along with advice on prioritizing how any surplus should be used or how to reduce expenses if they exceed your income. Advice may also be provided on which debts to pay off first based on factors such as the interest rate of the debt and any income tax ramifications. We may also recommend what we believe to be an appropriate cash reserve that should be considered for emergencies and other financial goals, along with a review of accounts (such as money market funds) for such

reserves, plus strategies to save desired amounts.

College Savings: Includes projecting the amount that will be needed to achieve college or other post-secondary education funding goals, along with advice on ways for you to save the desired amount. Recommendations as to savings strategies are included, and, if needed, we will review your financial picture as it relates to eligibility for financial aid or the best way to contribute to grandchildren (if appropriate).

Employee Benefits Optimization: We will provide review and analysis as to whether you, as an employee, are taking the maximum advantage possible of your employee benefits. If you are a business owner, we will consider and/or recommend the various benefit programs that can be structured to meet both business and personal retirement goals.

Estate Planning: This usually includes an analysis of your exposure to estate taxes and your current estate plan, which may include whether you have a will, powers of attorney, trusts, and other related documents. Our advice also typically includes ways for you to minimize or avoid future estate taxes by implementing appropriate estate planning strategies such as the use of applicable trusts. We always recommend that you consult with a qualified attorney when you initiate, update, or complete estate planning activities. We may provide you with contact information for attorneys who specialize in estate planning when you wish to hire an attorney for such purposes. From time-to-time, we will (if you are working with an outside attorney) participate in meetings or phone calls between you and your attorney with your approval or request.

Financial Goals: We will help Clients identify financial goals and develop a plan to reach them. We will identify what you plan to accomplish, what resources you will need to make it happen, how much time you will need to reach the goal, and how much you should budget for your goal.

Insurance: Review of existing policies to ensure proper coverage for life, health, disability, long-term care, liability, home, and automobile.

Investment Analysis: This may involve developing an asset allocation strategy to meet Clients' financial goals and risk tolerance, providing information on investment vehicles and strategies, reviewing employee stock options, as well as assisting you in establishing your own investment account at a selected broker/dealer or custodian. The strategies and types of investments we may recommend are further discussed in Item 8 of this brochure.

Retirement Planning: Our retirement planning services typically include projections of your likelihood of achieving your financial goals, typically focusing on financial independence as the primary objective. For situations where projections show less than the desired results, we may make recommendations, including those that may impact the original projections by adjusting certain variables (e.g., working longer, saving more, spending less, taking more risk with investments). If you are near retirement or already retired, advice may be given on appropriate distribution strategies to minimize the likelihood of running out of money or having to adversely alter spending during your retirement years.

Risk Management: A risk management review includes an analysis of your exposure to major risks that could have a significant adverse impact on your financial picture, such as premature death, disability, property and casualty losses, or the need for long-term care planning. Advice may be provided on ways to minimize such risks and about weighing the costs of purchasing insurance versus the benefits of doing so and, likewise, the potential cost of not purchasing insurance (“self-insuring”).

Tax Planning Strategies: Advice may include ways to minimize current and future income taxes as a part of your overall financial planning picture. For example, we may make recommendations on which type of account(s) or specific investments should be owned based in part on their “tax efficiency,” with the consideration that there is always a possibility of future changes to federal, state or local tax laws and rates that may impact your situation.

Employee Benefit Plan Service: Our firm provides employee benefit plan services to employer plan sponsors on an ongoing basis. Generally, such services consist of assisting employer plan sponsors in establishing, monitoring and reviewing their company's participant-directed retirement plan. As the needs of the plan sponsor dictate, areas of advising could include: investment options, plan structure, and participant education. In providing employee benefit plan services, our firm does not provide any advisory services with respect to the following types of assets: employer securities, real estate (excluding real estate funds and publicly traded REITS), participant loans, non-publicly traded securities or assets, other illiquid investments, or brokerage window programs (collectively, “Excluded Assets”).

Tax Preparation Services: Personal Tax Return Preparation. We are available to prepare and electronically file Federal and state tax returns for individuals from information the client provides. We may ask for an explanation or clarification of some items, but we will not audit or otherwise verify client data. The client is responsible for the completeness and accuracy of information used to prepare the returns. Our responsibility is to prepare the returns in accordance with applicable tax laws. We may observe opportunities for tax savings that require planning or changes in the way the client handles some transactions. While an engagement for tax return preparation does not include significant tax planning services, we will share any ideas we have with you and discuss terms for any additional work that may be required to implement those ideas.

Client Tailored Services and Client Imposed Restrictions

We offer the same suite of services to all of our Clients and different options depending on the amount and type of assets. However, specific Client financial plans and their implementation are dependent upon the Client Investment Policy Statement which outlines each Client’s current situation (income, tax levels, and risk tolerance levels) and is used to construct a Client specific plan to aid in the selection of a portfolio that matches restrictions, needs, and targets. Clients are able to specify, within reason, any limitations they would like to place on discretionary authority as it pertains to individual securities and/or sectors that will be traded in their account, by notating these items on the executed advisory agreement.

Limitations of Financial Planning and Non-Investment Consulting/Implementation Services

As indicated above, we offer investment management and financial planning services as well as hourly or project based consulting on financial planning related matters. Under Family First Wealth Management, we do not serve as an attorney and no portion of our services or recommendations should be construed as legal advice unless

otherwise agreed upon as part of a separate engagement as explained below. Accordingly, we do not prepare legal or estate planning documents under Family First Wealth Management.

To the extent requested by a client, we may recommend the services of other professionals for certain non-investment implementation purpose (i.e. attorneys, accountants, insurance, etc.), including our founder and principal, Barry Federici, in his separate licensed capacity as an attorney through the Law Office of Barry Federici. See additional disclosures in Item 10 of this Form ADV Part 2A and below.

The client is under no obligation to engage the services of any such recommended professional. The client retains absolute discretion over all such implementation decisions and is free to accept or reject any recommendation from us and/or our representatives. Clients of Family First Wealth Management can always obtain legal services from other, non-affiliated professionals. Please Note: If the client engages any recommended unaffiliated professional, and a dispute arises thereafter relative to such engagement, the client agrees to seek recourse exclusively from and against the engaged professional.

Barry Federici, as the principal and primary adviser of Family First Wealth Management has an incentive to refer clients to the Law Office of Barry Federici for legal services in order to receive additional compensation. This is a conflict of interest that is mitigated by the fact that Barry Federici acts a fiduciary and is required to act in the clients best interest at all times. Barry Federici will not refer clients to the Law Office of Barry Federici unless he determines it is suitable and in the best interest of the client based on their current needs as well as their goals and objectives.

Wrap Fee Programs

We do not participate in wrap fee programs.

Item 5: Fees and Compensation

Please note, unless a Client has received the firm's Disclosure Brochure at least 48 hours prior to signing the investment advisory contract, the investment advisory contract may be terminated by the Client within five (5) business days of signing the contract without incurring any advisory fees. How we are paid depends on the type of advisory services we are performing. Please review the fee and compensation information below.

Investment Management & Financial Planning Services

There is an **onboarding fee** of \$250 for stand alone investment management services as well as Comprehensive Financial Planning with Investment Management Service. This onboarding fee covers the initial meeting at the start of the engagement and assistance with gathering all of the necessary data to make initial investment recommendations and build out the client's financial profile.

Comprehensive Financial Plan Fee: While not required for stand alone investment management, we encourage all clients to go through the development and implementation of a financial plan at the start of any financial planning or investment management engagement. We will develop a Comprehensive Financial Plan for the client for an hourly fee of \$250 with a minimum of 3 hours (\$750). This is a required process for clients engaging in the

combined comprehensive financial planning with investment management service. The fee may be waived at the advisor’s discretion.

Stand Alone Investment Management Services Our standard advisory fee is based on the market value of the assets under management and is calculated as follows:

Minimum Account Size Requirement of \$60,000 for standalone investment management. This minimum may be waived at the adviser’s discretion but the minimum fee will be \$900 per year if managed assets do not meet the minimum requirement.

Account Value	Annual Advisory Fee
The First \$490,000	1.0%
All Assets Above \$490,000	See Table Below

Comprehensive Financial Planning with Investment Management Services Our standard advisory fee for clients with over \$490,000 includes ongoing financial planning consultations in the advisory fee which is based on the market value of the assets under management and is calculated using the table below.

Minimum Account Size Requirement of \$490,000. This minimum may be waived at the adviser’s discretion but the minimum fee will be \$4,900 per year if managed assets do not meet the minimum requirement.

Account Value	Annual Advisory Fee
The First \$490,000	1.0%
\$490,001 - \$600,000	0.95%
\$600,001 - \$800,000	0.90%
\$800,001 - \$1,000,000	0.85%
\$1,000,001 - \$2,000,000	0.80%
\$2,000,001 - \$3,000,000	0.70%
\$3,000,001 - \$4,000,000	0.60%
\$4,000,000 And Above	0.50%

The annual fees are negotiable and are pro-rated and paid in arrears on a monthly basis. The advisory fee is a flat percentage of assets under management and is calculated by assessing the percentage rates using the predefined levels of assets as shown in the above chart and applying the fee to the account value as of the last business day of the month.

For example, an account valued at \$1,000,000 would pay an effective fee of 0.945% with the annual fee of \$9,445. The monthly fee is determined by the following calculation: $((\$490,000 \times 1.0\%) + (\$110,000 \times 0.95\%) + (\$200,000 \times 0.9\%) + (\$200,000 \times 0.85\%)) \div 12 = \787.08 .

No increase in the annual fee shall be effective without agreement from the Client by signing a new agreement or amendment to their current advisory agreement.

Advisory fees are directly debited from Client accounts, or the Client may choose to pay by check if communicated and agreed to at least one week before the end of the month. Accounts initiated or terminated during a calendar month will be charged a pro-rated fee based on the amount of time remaining in the billing period. An account may be terminated with written notice at least 30 calendar days in advance. Since fees are paid in arrears, no refund will be needed upon termination of the account.

The annual fees are negotiable and are pro-rated and paid in arrears on a monthly basis, and are based on the average daily balance over the previous month.

When an Outside Manager is used, the Outside Manager will debit the Client’s account for both the Outside Manager’s fee, and Family First Wealth Management’s advisory fee, and will remit Family First Wealth Management’s fee to Family First Wealth Management. Please note, the above fee schedule does not include the Outside Manager’s fee. No increase in the annual fee shall be effective without agreement from the Client by signing a new agreement or amendment to their current advisory agreement.

Accounts initiated or terminated during a calendar quarter will be charged a pro-rated fee based on the amount of time remaining in the billing period. An account may be terminated with written notice at least 30 calendar days in advance. Since fees are paid in arrears, no refund will be needed upon termination of the account.

Project-Based Financial Planning Fixed Fee

Project-Based Financial Planning is offered on a fixed fee basis. The fixed fee will be agreed upon before the start of any work and will start at \$750 up to \$2,000, depending on the amount of time required to complete the project based on an hourly rate of \$250. In addition, there is a one time on-boarding fee of \$250. The amount of the fees are negotiable and any fees can be waived at the adviser’s discretion. If a fixed fee program is chosen, half of the fee is due at the beginning of the process and the remainder is due upon completion of any work, however, Family First Wealth Management will not bill an amount above \$500.00 more than 6 months in advance of rendering the service. Fees for this service may be paid by electronic funds transfer or check. In the event of early termination any prepaid but unearned fees will be refunded to the Client and any completed deliverables of the project will be provided to the Client and no further fees will be charged.

Hourly Consultation Fee

Hourly Consulting engagements are offered at an hourly rate of \$300 per hour with a minimum of 2.5 hours (\$750). The fee may be negotiable in certain cases and is due at the completion of the engagement. We will provide the client with an estimate as to the amount of time needed for the engagement and will bill the client upon completion. In the event of early termination by the Client, any fees for the hours worked will be due. Fees for this service may be paid by electronic funds transfer, or by check if agreed to in advance.

Employee Benefit Plan Services

Minimum Plan Size Requirement of \$60,000, and minimum fee of \$900.

Plan Asset Value	Annual Advisory Fee
The First \$490,000	1.0%
\$490,001 - \$600,000	0.95%

\$600,001 - \$800,000	0.90%
\$800,001 - \$1,000,000	0.85%
\$1,000,001 - \$2,000,000	0.80%
\$2,000,001 - \$3,000,000	0.70%
\$3,000,001 - \$4,000,000	0.60%
\$4,000,000 And Above	0.50%

Family First Wealth Management will be compensated for Employee Benefit Plan services according to the value of plan assets. This does not include fees to other parties, such as RecordKeepers, Custodians, or Third-Party-Administrators. Fees for this service are either paid directly by the plan sponsor or deducted directly from the plan assets by the Custodian on a quarterly basis, and Family First Wealth Management's fee is remitted to Family First Wealth Management.

The fees for **Personal Tax Return Preparation** typically range from \$750 to \$1,000 based on the number of hours needed to prepare the return. The hourly fee is \$250 and may be negotiable in certain cases and are due at the completion of the engagement. There is a minimum charge of \$750. Since fees are paid upon completion, any earned but unpaid fees will be due in the event of termination of the agreement.

Other Types of Fees and Expenses

Our fees are exclusive of brokerage commissions, transaction fees, and other related costs and expenses which may be incurred by the Client. Clients may incur certain charges imposed by custodians, brokers, and other third parties such as custodial fees, deferred sales charges, odd-lot differentials, transfer taxes, wire transfer, and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. Mutual fund and exchange-traded funds also charge internal management fees, which are disclosed in a fund's prospectus. Such charges, fees, and commissions are exclusive of and in addition to our fee, and we shall not receive any portion of these commissions, fees, and costs.

Item 12 further describes the factors that we consider in selecting or recommending broker-dealers for Client's transactions and determining the reasonableness of their compensation (e.g., commissions).

We do not accept compensation for the sale of securities or other investment products including asset-based sales charges or service fees from the sale of mutual funds.

Item 6: Performance-Based Fees and Side-By-Side Management

We do not offer performance-based fees and do not engage in side-by-side management.

Item 7: Types of Clients

We provide financial planning, investment management, employee benefit plan services, and tax preparation service to individuals, high net-worth individuals, pension and profit sharing plans, and charitable organizations.

Our minimum account size requirement for investment management is \$60,000.

Item 8: Methods of Analysis, Investment Strategies and Risk of Loss

Our primary method of investment analysis involves the use of Modern Portfolio Theory.

Modern Portfolio Theory

The underlying principles of MPT are:

- Investors are risk averse. The only acceptable risk is that which is adequately compensated by an expected return. Risk and investment return are related and an increase in risk requires an increased expected return.
- Markets are efficient. The same market information is available to all investors at the same time. The market prices every security fairly based upon this equal availability of information.
- The design of the portfolio as a whole is more important than the selection of any particular security. The appropriate allocation of capital among asset classes will have far more influence on long-term portfolio performance than the selection of individual securities.
- Investing for the long-term (preferably longer than ten years) becomes critical to investment success because it allows the long-term characteristics of the asset classes to surface.
- Increasing diversification of the portfolio with lower correlated asset class positions can decrease portfolio risk. Correlation is the statistical term for the extent to which two asset classes move in tandem or opposition to one another.

Use of Outside Managers: We may refer Clients to third-party investment advisers ("outside managers"). Our analysis of outside managers involves the examination of the experience, expertise, investment philosophies, and past performance of the outside managers in an attempt to determine if that manager has demonstrated an ability to invest over a period of time and in different economic conditions. We monitor the manager's underlying holdings, strategies, concentrations, and leverage as part of our overall periodic risk assessment. Additionally, as part of our due diligence process, we survey the manager's compliance and business enterprise risks. A risk of investing with an outside manager who has been successful in the past is that he or she may not be able to replicate that success in the future. In addition, as we do not control the underlying investments in an outside manager's portfolio. There is also a risk that a manager may deviate from the stated investment mandate or strategy of the portfolio, making it a less suitable investment for our Clients. Moreover, as we do not control the manager's daily business and compliance operations, we may be unaware of the lack of internal controls necessary to prevent business, regulatory or reputational deficiencies.

Passive Investment Management

We primarily practice passive investment management. Passive investing involves building portfolios that are comprised of various distinct asset classes. The asset classes are weighted in a manner to achieve the desired relationship between correlation, risk, and return. Funds that passively capture the returns of the desired asset classes are placed in the portfolio. The funds that are used to build passive portfolios are typically index mutual funds or exchange-traded funds.

Passive investment management is characterized by low portfolio expenses (i.e. the funds inside the portfolio have low internal costs), minimal trading costs (due to infrequent trading activity), and relative tax efficiency (because the funds inside the portfolio are tax efficient and turnover inside the portfolio is minimal).

In contrast, active management involves a single manager or managers who employ some method, strategy or technique to construct a portfolio that is intended to generate returns that are greater than the broader market or a designated benchmark.

Material Risks Involved

All investing strategies we offer involve risk and may result in a loss of your original investment which you should be prepared to bear. Many of these risks apply equally to stocks, bonds, commodities, and any other investment or security. Material risks associated with our investment strategies are listed below.

Market Risk: Market risk involves the possibility that an investment's current market value will fall because of a general market decline, reducing the value of the investment regardless of the operational success of the issuer's operations or its financial condition.

Strategy Risk: The Adviser's investment strategies and/or investment techniques may not work as intended.

Interest Rate Risk: Bond (fixed income) prices generally fall when interest rates rise, and the value may fall below par value or the principal investment. The opposite is also generally true: bond prices generally rise when interest rates fall. In general, fixed income securities with longer maturities are more sensitive to these price changes. Most other investments are also sensitive to the level and direction of interest rates.

Legal or Legislative Risk: Legislative changes or Court rulings may impact the value of investments, or the securities' claim on the issuer's assets and finances.

Inflation: Inflation may erode the buying power of your investment portfolio, even if the dollar value of your investments remains the same.

Risks Associated with Securities

Apart from the general risks outlined above which apply to all types of investments, specific securities may have other risks.

Commercial Paper is, in most cases, an unsecured promissory note that is issued with a maturity of 270 days or less. Being unsecured the risk to the investor is that the issuer may default.

Common stocks may go up and down in price quite dramatically, and in the event of an issuer's bankruptcy or restructuring could lose all value. A slower-growth or recessionary economic environment could have an adverse effect on the price of all stocks.

Corporate Bonds are debt securities to borrow money. Generally, issuers pay investors periodic interest and repay the amount borrowed either periodically during the life of the security and/or at maturity. Alternatively, investors can purchase other debt securities, such as zero coupon bonds, which do not pay current interest, but

rather are priced at a discount from their face values and their values accrete over time to face value at maturity. The market prices of debt securities fluctuate depending on factors such as interest rates, credit quality, and maturity. In general, market prices of debt securities decline when interest rates rise and increase when interest rates fall. The longer the time to a bond's maturity, the greater its interest rate risk.

Bank Obligations including bonds and certificates of deposit may be vulnerable to setbacks or panics in the banking industry. Banks and other financial institutions are greatly affected by interest rates and may be adversely affected by downturns in the U.S. and foreign economies or changes in banking regulations.

Municipal Bonds are debt obligations generally issued to obtain funds for various public purposes, including the construction of public facilities. Municipal bonds pay a lower rate of return than most other types of bonds. However, because of a municipal bond's tax-favored status, investors should compare the relative after-tax return to the after-tax return of other bonds, depending on the investor's tax bracket. Investing in municipal bonds carries the same general risks as investing in bonds in general. Those risks include interest rate risk, reinvestment risk, inflation risk, market risk, call or redemption risk, credit risk, and liquidity and valuation risk.

Options and other derivatives carry many unique risks, including time-sensitivity, and can result in the complete loss of principal. While covered call writing does provide a partial hedge to the stock against which the call is written, the hedge is limited to the amount of cash flow received when writing the option. When selling covered calls, there is a risk the underlying position may be called away at a price lower than the current market price.

Exchange Traded Funds prices may vary significantly from the Net Asset Value due to market conditions. Certain Exchange Traded Funds may not track underlying benchmarks as expected. ETFs are also subject to the following risks: (i) an ETF's shares may trade at a market price that is above or below their net asset value; (ii) of an ETF's shares may be halted if the listing exchange's officials deem such action appropriate, the shares are de-listed from the exchange, or the activation of market-wide "circuit breakers" (which are tied to large decreases in stock prices) halts stock trading generally. The Adviser has no control over the risks taken by the underlying funds in which the Clients invest.

Mutual Funds: When a Client invests in open-end mutual funds or ETFs, the Client indirectly bears its proportionate share of any fees and expenses payable directly by those funds. Therefore, the Client will incur higher expenses, many of which may be duplicative. In addition, the Client's overall portfolio may be affected by losses of an underlying fund and the level of risk arising from the investment practices of an underlying fund (such as the use of derivatives).

Real Estate Risk: An account's investments in real estate investment trusts ("REITs") are subject to risks affecting real estate investments generally (including market conditions, competition, property obsolescence, changes in interest rates and casualty to real estate), as well as risks specifically affecting REITs (the quality and skill of REIT management and the REIT's internal expenses).

Item 9: Disciplinary Information

Criminal or Civil Actions

Family First Wealth Management and its management have not been involved in any criminal or civil action.

Administrative Enforcement Proceedings

Family First Wealth Management and its management have not been involved in administrative enforcement proceedings.

Self-Regulatory Organization Enforcement Proceedings

Family First Wealth Management and its management have not been involved in legal or disciplinary events that are material to a Client's or prospective Client's evaluation of Family First Wealth Management or the integrity of its management.

Item 10: Other Financial Industry Activities and Affiliations

No Family First Wealth Management employee is registered, or have an application pending to register as a broker-dealer or a registered representative of a broker-dealer.

No Family First Wealth Management employee is registered, or have an application pending to register, as a futures commission merchant, commodity pool operator or a commodity trading advisor.

Family First Wealth Management only receives compensation directly from Clients. We do not receive compensation from any outside source. We do not have any conflicts of interest with any outside party.

Barry Federici is also licensed as an Attorney and provides legal services through the Law Office of Barry Federici. Clients of Family First Wealth Management may be referred to the Law Office of Barry Federici for legal services when it is deemed to be in the client's best interest. This is a conflict of interest as Barry Federici has an incentive to refer clients to the Law Office of Barry Federici in order to receive additional compensation. This conflict of interest is mitigated by the fact that Barry Federici acts a fiduciary and is required to act in the clients best interest at all times. Barry Federici will not refer clients to the Law Office of Barry Federici unless he determines it is suitable and in the best interest of the client based on their current needs as well as their goals and objectives. Clients of Family First Wealth Management are under no obligation to engage the services of any such recommended professional.

Recommendations or Selections of Other Investment Advisers

As referenced in Item 4 of this brochure, Family First Wealth Management may recommend Clients to Outside Managers to manage their accounts. In the event that we recommend an Outside Manager, please note that we do not share in their advisory fee. Our fee is separate and in addition to their compensation (as noted in Item 5) and will be described to you prior to engagement. You are not obligated, contractually or otherwise, to use the services of any Outside Manager we recommend. Additionally, Family First Wealth Management will only recommend an Outside Manager who is properly licensed or registered as an investment adviser.

Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

As a fiduciary, our firm and its associates have a duty of utmost good faith to act solely in the best interests of each Client. Our Clients entrust us with their funds and personal information, which in turn places a high standard on our conduct and integrity. Our fiduciary duty is a core aspect of our Code of Ethics and represents the expected basis of all of our dealings. The firm also adheres to the Code of Ethics and Professional Responsibility adopted by the CFP® Board of Standards Inc., and accepts the obligation not only to comply with the mandates and requirements of all applicable laws and regulations but also to take responsibility to act in an ethical and professionally responsible manner in all professional services and activities

Code of Ethics Description

This code does not attempt to identify all possible conflicts of interest, and literal compliance with each of its specific provisions will not shield associated persons from liability for personal trading or other conduct that violates a fiduciary duty to advisory Clients. A summary of the Code of Ethics' Principles is outlined below:

- Integrity - Associated persons shall offer and provide professional services with integrity.
- Objectivity - Associated persons shall be objective in providing professional services to Clients.
- Competence - Associated persons shall provide services to Clients competently and maintain the necessary knowledge and skill to continue to do so in those areas in which they are engaged.
- Fairness - Associated persons shall perform professional services in a manner that is fair and reasonable to Clients, principals, partners, and employers, and shall disclose conflict(s) of interest in providing such services.
- Confidentiality - Associated persons shall not disclose confidential Client information without the specific consent of the Client unless in response to proper legal process, or as required by law.
- Professionalism - Associated persons' conduct in all matters shall reflect the credit of the profession.
- Diligence - Associated persons shall act diligently in providing professional services.

We periodically review and amend our Code of Ethics to ensure that it remains current, and we require all firm access persons to attest to their understanding of and adherence to the Code of Ethics at least annually. Our firm will provide a copy of its Code of Ethics to any Client or prospective Client upon request.

Investment Recommendations Involving a Material Financial Interest and Conflicts of Interest

Neither our firm, its associates or any related person is authorized to recommend to a Client or effect a transaction for a Client, involving any security in which our firm or a related person has a material financial interest, such as in the capacity as an underwriter, adviser to the issuer, etc.

Advisory Firm Purchase of Same Securities Recommended to Clients and Conflicts of Interest

Our firm and its “related persons” may buy or sell securities similar to, or different from, those we recommend to Clients for their accounts. In an effort to reduce or eliminate certain conflicts of interest involving the firm or

personal trading, our policy may require that we restrict or prohibit associates' transactions in specific reportable securities transactions. Any exceptions or trading pre-clearance must be approved by the firm principal in advance of the transaction in an account, and we maintain the required personal securities transaction records per regulation.

Trading Securities At/Around the Same Time as Client's Securities

From time to time, our firm or its "related persons" may buy or sell securities for themselves at or around the same time as clients. This may provide an opportunity for representatives of Family First Wealth Management to buy or sell securities before or after recommending securities to clients resulting in representatives profiting off the recommendations they provide to clients. Such transactions may create a conflict of interest; however, Family First Wealth Management will never engage in trading that operates to the client's disadvantage if representatives of Family First Wealth Management buy or sell securities at or around the same time as clients.

Item 12: Brokerage Practices

Factors Used to Select Custodians and/or Broker-Dealers

Family First Wealth Management, LLC does not have any affiliation with Broker-Dealers. Specific custodian recommendations are made to the Client based on their need for such services. We recommend custodians based on the reputation and services provided by the firm.

1. Research and Other Soft-Dollar Benefits

We currently receive soft dollar benefits by nature of our relationship with MTG, LLC dba Betterment Securities ("Betterment Securities").

2. Brokerage for Client Referrals

We receive no referrals from a broker-dealer or third party in exchange for using that broker-dealer or third party.

3. Clients Directing Which Broker/Dealer/Custodian to Use

We do recommend a specific custodian for Clients to use, however, Clients may custody their assets at a custodian of their choice. Clients may also direct us to use a specific broker-dealer to execute transactions. By allowing Clients to choose a specific custodian, we may be unable to achieve the most favorable execution of Client transaction and this may cost Clients money over using a lower-cost custodian.

The Custodian and Brokers We Use

Depending on the needs and objectives of the client investable assets managed by our firm or through a third party investment manager will be custodied at one of two qualified custodians. Betterment Securities or TD Ameritrade.

Betterment Securities

Family First Wealth Management does not maintain custody of your assets that we manage, although we may be deemed to have custody of your assets if you give us the authority to withdraw advisory fees from your account (see Item 15 — Custody, below). Your assets must be maintained in an account at a "qualified custodian," generally a broker-dealer or bank. We may recommend that our Clients use MTG, LLC dba Betterment Securities ("Betterment Securities"), a registered broker-dealer, member SIPC, as the qualified custodian. We are independently owned and operated and are not affiliated with Betterment Securities. Betterment Securities will

hold your assets in a brokerage account and buy and sell securities when we and/or you instruct them to. While we may recommend that you use Betterment Securities as custodian/broker, you will decide whether to do so and will open your account with Betterment Securities by entering into an account agreement directly with them. We do not open the account for you, although we may assist you in doing so. If you do not wish to place your assets with Betterment Securities, then we cannot manage your account on Betterment For Advisors (defined below).

Your Brokerage and Custody Costs

For our Clients' accounts that Betterment Securities maintains, Betterment Securities generally does not charge you separately for custody services but is compensated as part of the Betterment For Advisors (defined below) platform fee, which is a percentage of the dollar amount of assets in the account in lieu of commissions. We have determined that having Betterment Securities execute trades is consistent with our duty to seek "best execution" of your trades. Best execution means the most favorable terms for a transaction based on all relevant factors, including those listed above (see "Factors Used to Select Custodians and/or Broker-Dealers").

Services Available to Us via Betterment For Advisors

Betterment Securities serves as broker-dealer to Betterment For Advisors, an investment and advice platform serving independent investment advisory firms like us ("Betterment For Advisors"). Betterment For Advisors also makes available various support services which may not be available to Betterment's retail customers. Some of those services help us manage or administer our Clients' accounts, while others help us manage and grow our business. Betterment For Advisors' support services are generally available on an unsolicited basis (we don't have to request them) and at no charge to us. Following is a more detailed description of Betterment For Advisors' support services:

1. **SERVICES THAT BENEFIT YOU.** Betterment For Advisors includes access to a range of investment products, execution of securities transactions, and custody of Client assets through Betterment Securities. Betterment Securities' services described in this paragraph generally benefit you and your account.
2. **SERVICES THAT MAY NOT DIRECTLY BENEFIT YOU.** Betterment For Advisors also makes available to us other products and services that benefit us, but may not directly benefit you or your account. These products and services assist us in managing and administering our Clients' accounts, such as software and technology that may:
 - a. Assist with back-office functions, recordkeeping, and Client reporting of our Clients' accounts.
 - b. Provide access to Client account data (such as duplicate trade confirmations and account statements).
 - c. Provide pricing and other market data.
 - d. Assist with back-office functions, recordkeeping, and Client reporting.
3. **SERVICES THAT GENERALLY BENEFIT ONLY US.** By using Betterment For Advisors, we will be offered other services intended to help us manage and further develop our business enterprise. These services include:
 - a. Educational conferences and events.
 - b. Consulting on technology, compliance, legal, and business needs.
 - c. Publications and conferences on practice management and business succession.

Our Interest in Betterment Securities' Services

The availability of these services from Betterment For Advisors benefits us because we do not have to produce or purchase them. In addition, we don't have to pay for Betterment Securities' services. These services may be contingent upon us committing a certain amount of business to Betterment Securities in assets in custody. We

may have an incentive to recommend that you maintain your account with Betterment Securities, based on our interest in receiving Betterment For Advisors and Betterment Securities' services that benefit our business rather than based on your interest in receiving the best value in custody services and the most favorable execution of your transactions. This is a potential conflict of interest. We believe, however, that our selection of Betterment Securities as custodian and broker is in the best interests of our Clients. Our selection is primarily supported by the scope, quality, and price of Betterment Securities' services and not Betterment For Advisors and Betterment Securities' services that benefit only us.

TD Ameritrade

Advisor participates in the TD Ameritrade Institutional program. TD Ameritrade Institutional is a division of TD Ameritrade, Inc. ("TD Ameritrade"), member FINRA/SIPC. TD Ameritrade is an independent [and unaffiliated] SEC-registered broker-dealer. TD Ameritrade offers to independent investment Advisors services which include custody of securities, trade execution, clearance, and settlement of transactions. Advisor receives some benefits from TD Ameritrade through its participation in the program (Please see the disclosure under Item 14 below).

Aggregating (Block) Trading for Multiple Client Accounts

Investment advisers may elect to purchase or sell the same securities for several clients at approximately the same time when they believe such action may prove advantageous to clients. This process is referred to as aggregating orders, batch trading or block trading. We do not engage in block trading. It should be noted that implementing trades on a block or aggregate basis may be less expensive for client accounts; however, it is our trading policy is to implement all client orders on an individual basis. Therefore, we do not aggregate or "block" client transactions. Considering the types of investments we hold in advisory client accounts, we do not believe clients are hindered in any way because we trade accounts individually. This is because we develop individualized investment strategies for clients and holdings will vary. Our strategies are primarily developed for the long-term and minor differences in price execution are not material to our overall investment strategy.

Outside Managers used by Family First Wealth Management may block Client trades at their discretion. Their specific practices are further discussed in their ADV Part 2A, Item 12.

Item 13: Review of Accounts

Barry Federici, Owner and CCO of Family First Wealth Management, will work with Clients to obtain current information regarding their assets and investment holdings and will review this information as part of our financial planning services, if the client is not separately engaged in our investment management services. Family First Wealth Management does not provide specific reports regarding financial planning, other than the Comprehensive Financial Plans or as agreed to as a separate engagement.

Client accounts with the Investment Advisory Service will be reviewed regularly on a quarterly basis by Barry Federici, Owner and CCO. The account is reviewed with regards to the Client's investment policies and risk tolerance levels. Events that may trigger a special review would be unusual performance, additions or deletions of Client imposed restrictions, excessive draw-down, volatility in performance, or buy and sell decisions from the firm or per Client's needs.

Clients will receive trade confirmations from the broker(s) for each transaction in their accounts as well as monthly or quarterly statements and annual tax reporting statements from their custodian showing all activity in the accounts, such as receipt of dividends and interest.

Family First Wealth Management will provide written reports to Investment Advisory Clients on a quarterly basis. We urge Clients to compare these reports against the account statements they receive from their custodian.

Item 14: Client Referrals and Other Compensation

We do not receive any economic benefit, directly or indirectly, from any third party for advice rendered to our Clients. In the future we may directly or indirectly engage in solicitation arrangements where we may compensate non-advisory personnel in exchange for client referrals. We will always ensure that the solicitors are appropriately registered in their jurisdiction prior to compensating or agreeing to compensate any solicitor in exchange for client referrals.

Betterment: We receive a non-economic benefit from Betterment For Advisors and Betterment Securities in the form of the support products and services it makes available to us and other independent investment advisors whose Clients maintain their accounts at Betterment Securities. These products and services, how they benefit us, and the related conflicts of interest are described above (see Item 12—Brokerage Practices). The availability to us of Betterment For Advisors and Betterment Securities' products and services is not based on us giving particular investment advice, such as buying particular securities for our Clients.

TD Ameritrade: As disclosed under Item 12, above, Advisor participates in TD Ameritrade's institutional customer program and Advisor may recommend TD Ameritrade to Clients for custody and brokerage services. There is no direct link between Advisor's participation in the program and the investment advice it gives to its Clients, although Advisor receives economic benefits through its participation in the program that are typically not available to TD Ameritrade retail investors. These benefits include the following products and services (provided without cost or at a discount): receipt of duplicate Client statements and confirmations; research related products and tools; consulting services; access to a trading desk serving Advisor participants; access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to Client accounts); the ability to have advisory fees deducted directly from Client accounts; access to an electronic communications network for Client order entry and account information; access to mutual funds with no transaction fees and to certain institutional money managers; and discounts on compliance, marketing, research, technology, and practice management products or services provided to Advisor by third party vendors. TD Ameritrade may also have paid for business consulting and professional services received by Advisor's related persons. Some of the products and services made available by TD Ameritrade through the program may benefit Advisor but may not benefit its Client accounts. These products or services may assist Advisor in managing and administering Client accounts, including accounts not maintained at TD Ameritrade. Other services made available by TD Ameritrade are intended to help Advisor manage and further develop its business enterprise. The benefits received by the Advisor or its personnel through participation in the program does not depend on the number of brokerage transactions directed to TD Ameritrade. As part of its fiduciary duties to Clients, Advisor endeavors at all times to put the interests of its Clients first. Clients should be aware, however, that the receipt of economic benefits by Advisor or its related persons in and of itself creates a potential

conflict of interest and may indirectly influence the Advisor's choice of TD Ameritrade for custody and brokerage services.

Item 15: Custody

Family First Wealth Management does not accept custody of Client funds except in the instance of withdrawing Client fees.

For Client accounts in which Family First Wealth Management directly debits their advisory fee:

- i. Family First Wealth Management will send a copy of its invoice to the custodian at the same time that it sends the Client a copy.
- ii. The custodian will send at least quarterly statements to the Client showing all disbursements for the account, including the amount of the advisory fee.
- iii. The Client will provide written authorization to Family First Wealth Management, permitting them to be paid directly for their accounts held by the custodian.

Clients will receive at least quarterly statements from the qualified custodian that holds and maintains Client's investment assets. We urge you to carefully review such statements and compare such official custodial records to the reports that we may provide to you. Our reports may vary from custodial statements based on accounting procedures, reporting dates, or valuation methodologies of certain securities.

Item 16: Investment Discretion

For those Client accounts where we provide Investment Management Services, we maintain discretion over Client accounts with respect to securities to be bought and sold and the amount of securities to be bought and sold. Investment discretion is explained to Clients in detail when an advisory relationship has commenced. At the start of the advisory relationship, the Client will sign an agreement and indicate that they agree to provide us with discretion over the managed account and securities. The discretionary relationship will be outlined in the advisory contract and signed by the Client.

Item 17: Voting Client Securities

We do not vote Client proxies. Therefore, Clients maintain exclusive responsibility for: (1) voting proxies, and (2) acting on corporate actions pertaining to the Client's investment assets. The Client shall instruct the Client's qualified custodian to forward to the Client copies of all proxies and shareholder communications relating to the Client's investment assets. If the Client would like our opinion on a particular proxy vote, they may contact us at the number listed on the cover of this brochure.

In most cases, you will receive proxy materials directly from the account custodian. However, in the event we were to receive any written or electronic proxy materials, we would forward them directly to you by mail, unless

you have authorized our firm to contact you by electronic mail, in which case, we would forward you any electronic solicitation to vote proxies.

Item 18: Financial Information

Registered Investment Advisers are required in this Item to provide you with certain financial information or disclosures about our financial condition. We have no financial commitment that impairs our ability to meet contractual and fiduciary commitments to Clients, and we have not been the subject of a bankruptcy proceeding.

We do not have custody of Client funds or securities or require or solicit prepayment of more than \$500 in fees per Client six months in advance.

Item 19: Requirements for State-Registered Advisers

Barry Federici

Born: 1966

Educational Background

- 2018 -- JD, Northern Illinois University, College of Law, graduated with honors (Cum Laude)
- 2000 -- MS, University Of Illinois At Urbana-Champaign, specialization in Taxation
- 1999 -- MBA, University Of Illinois At Urbana-Champaign, concentration in Finance
- 1988 -- BS, University Of Illinois At Urbana-Champaign, Architecture

Business Experience

- 08/2019 -- Present, Family First Wealth Management, LLC, CCO, Owner
- 05/2001 -- Present, Saluting Success, Trust Mgmt, (became LLC, 01/2019)
- 02/1989 -- 02/2019, United States Marine Corps, Colonel (Reserves)
 - o From 12/2015 -- 01/2019; DoD Investment Advisory Committee (IAC), Chairman of IAC and oversaw and provided financial analysis and strategic recommendations for portfolios in excess of \$1 trillion, impacting approximately 2.1 million military retirees.

Professional Designations, Licensing & Exams:

Certified Public Accountant (CPA): The CPA designation distinguishes licensed accounting professionals committed to protecting the public interest. These professionals offer financial statement audits and other attestation services to help inform investors about the financial health of organizations. They provide individuals and families with valuable knowledge and advice on taxes and financial planning. In business and industry, CPAs offer organizations around the world tax, financial reporting and advisory services to drive strategic decision-making and foster growth and success.

To earn the CPA license, accounting professionals must have extensive education—at least 150 credit hours—pass a rigorous four-part exam and meet experience requirements. They must also commit to lifelong learning and adhere to a strict Code of Professional Conduct that requires competence, objectivity, integrity and independence.

Personal Financial Specialist (PFS): This designation is issued by the American Institute of Certified Public Accountants (AICPA) and is granted to individuals who must meet all of the following prerequisites: a member of the AICPA; hold an unrevoked CPA certificate issued by a state authority; earn at least 100 points under the PFS point system; and have substantial business experience in personal financial planning related services. The candidate is required to obtain personal financial planning specific education in addition to holding a valid CPA. The candidate must take a final certification examination (proctored by the AICPA) and once issued the

individual must undergo Continuing Education in the form of 60 PFS points in personal financial planning experience as well as qualified 'life-long learning' activities every three years.

Chartered Global Management Accountant (CGMA): The CGMA designation distinguishes professionals who have advanced proficiency in finance, operations, strategy and management. It is underpinned by extensive global research to maintain the highest relevance with employers and develop competencies most in demand. CGMA designation holders qualify through rigorous education, exam and experience requirements. They must commit to lifelong education and adhere to a stringent code of ethical conduct.

CFP (Certified Financial Planner)®: The CERTIFIED FINANCIAL PLANNER™, CFP® and federally registered CFP (with flame design) marks (collectively, the "CFP® marks") are professional certification marks granted in the United States by Certified Financial Planner Board of Standards, Inc. ("CFP Board").

The CFP® certification is a voluntary certification; no federal or state law or regulation requires financial planners to hold CFP® certification. It is recognized in the United States and a number of other countries for its (1) high standard of professional education; (2) stringent code of conduct and standards of practice; and (3) ethical requirements that govern professional engagements with Clients. Currently, more than 71,000 individuals have obtained CFP® certification in the United States.

To attain the right to use the CFP® marks, an individual must satisfactorily fulfill the following requirements:

- Education – Complete an advanced college-level course of study addressing the financial planning subject areas that CFP Board's studies have determined as necessary for the competent and professional delivery of financial planning services, and attain a Bachelor's Degree from a regionally accredited United States college or university (or its equivalent from a foreign university). CFP Board's financial planning subject areas include insurance planning and risk management, employee benefits planning, investment planning, income tax planning, retirement planning, and estate planning;
- Examination – Pass the comprehensive CFP® Certification Examination. The examination includes case studies and Client scenarios designed to test one's ability to correctly diagnose financial planning issues and apply one's knowledge of financial planning to real-world circumstances;
- Experience – Complete at least three years of full-time financial planning-related experience (or the equivalent, measured as 2,000 hours per year); and
- Ethics – Agree to be bound by CFP Board's *Standards of Professional Conduct*, a set of documents outlining the ethical and practice standards for CFP® professionals. Individuals who become certified must complete the following ongoing education and ethics requirements in order to maintain the right to continue to use the CFP® marks:
 - Continuing Education – Complete 30 hours of continuing education hours every two years, including two hours on the *Code of Ethics* and other parts of the *Standards of Professional Conduct*, to maintain competence and keep up with developments in the financial planning field; and
 - Ethics – Renew an agreement to be bound by the *Standards of Professional Conduct*.

The *Standards* prominently require that CFP® professionals provide financial planning services at a fiduciary standard of care. This means CFP® professionals must provide financial planning services in the best interests of their Clients. CFP® professionals who fail to comply with the above standards and requirements may be subject

to CFP Board's enforcement process, which could result in suspension or permanent revocation of their CFP® certification.

Other Business Activities

Barry Federici is currently employed (owner) as the Sole Member at Saluting Success, LLC, where he has oversight of a trust. In addition, he manages his personal real estate properties and personal investments that have no connection with any services or investment advice provided through Family First Wealth Management. Barry Federici is also employed part-time as an assistant state's attorney for Dekalb County, Illinois. In addition, Barry Federici operates his own legal practice. These activities may account for up to 25% of his time.

Performance-Based Fees

Family First Wealth Management is not compensated by performance-based fees.

Material Disciplinary Disclosures

No management person at Family First Wealth Management, LLC has ever been involved in an arbitration claim of any kind or been found liable in a civil, self-regulatory organization, or administrative proceeding.

Material Relationships That Management Persons Have With Issuers of Securities

Family First Wealth Management, LLC, nor Barry Federici have any relationship or arrangement with issuers of securities, in addition to what is described in Item 10.

Additional Compensation

Barry Federici does not receive any economic benefit from any person, company, or organization, in exchange for providing Clients advisory services through Family First Wealth Management.

Supervision

Barry Federici, as Owner and Chief Compliance Officer of Family First Wealth Management, is responsible for supervision. He may be contacted at the phone number on this brochure.

Requirements for State Registered Advisers

Barry Federici has NOT been involved in an arbitration, civil proceeding, self-regulatory proceeding, administrative proceeding, or a bankruptcy petition.
